

Docket No. 00-104  
PATENT APPLICATION

Applicant's amendment

Listing of Claims

1. (previously presented) In combination:  
a central maintenance computer system; and,  
an onboard maintenance terminal;  
said onboard maintenance terminal linking faults to maintenance documentation;  
said onboard maintenance terminal further linking flight deck effect (FDE) engine  
indication crew alerting system, (EICAS) messages to the aircraft fault isolation manual, (FIM)  
troubleshooting procedures; and,  
said onboard maintenance terminal further functioning to provide air/ground simulation  
capabilities; and air data computer (ADC) simulation capabilities.
